The **Medi-Cal Managed Care Division (MMCD) Advisory Group** is an opportunity for stakeholders to advise the Department of Health Care Services (DHCS) about the needs and concerns of managed care beneficiaries.

The Department of Health Care Services Medi-Cal Managed Care Division provides high quality, accessible, and cost-effective health care through managed care delivery systems. To promote and ensure this goal, we have established an Advisory Group to engage in discussions driving policy and to hold MMCD accountable to the essential health care needs of our beneficiaries.

Medi-Cal Managed Care eligibility and enrollment is in the process of significant expansion. Growth brings new and unique needs. MMCD wants to incorporate representatives from our new populations into our Advisory Group.

The Advisory Group invites beneficiaries, advocates, participating plans, and other key stakeholders to join the discussion. ***Make sure your voice counts!***
