

State Profiles for Women's Health

Dec 10, 2015

This interactive map and dashboard offers the latest national and state-specific data on women's health in the United States via comprehensive, easy-to-access state profiles. Just hover over a state in the map to see key facts for women on demographics, health coverage and access to care, sexual health, or pregnancy. Click on a state to see a dashboard of charts with state-specific data on women's health, including insurance and Medicaid coverage, poverty, mental health, HIV, cancer, pregnancy, abortions, and use of preventive services. Many indicators provide health care information for women of different racial and ethnic groups. The profiles draw from multiple sources, including the latest data from the Centers for Disease Control and Prevention (CDC) and the U.S. Census Bureau. Each chart can be downloaded easily. Click [here](#) to return to the U.S. map.
