Program Name	Income Limits and Costs
* MAGI Medi-Cal for Adults	Modified Adjusted Gross Income (MAGI) Medi-Cal for Adults covers parents, caretaker relatives and adults who qualify under the new Medicaid Expansion category up to 138% FPL. Disabled individuals may qualify for either MAGI Medi-Cal for Adults or Aged and Disabled Medi-Cal. The term MAGI is used both as a methodology for calculating income and also for a grouping of Medi-Cal programs that use MAGI income counting rules.
MAINTENANCE NEED (MNL) Non-MAGI Medi-Cal	Medi-Cal allows families a portion of their income for living expenses, called the Maintenance Need Level (MNL). Once other eligibility requirements are met, family size and income determines if family members can get Medi-Cal at no cost or with a Share-of-Cost (SOC). MNL determines the amount of SOC.
MEDI-CAL TARGETED LOW-INCOME CHILDREN'S PROGRAM	Expanded Medi-Cal and former Healthy Families Program for children up to 266% FPL. Children eligible for this program with income above 160% of FPL will be required to pay a monthly premium. AIM-linked infants are automatically eligible for TLICP Medi-Cal at birth and during the second year, with family income up to 322%.
AGED & DISABLED Non-MAGI Medi-Cal	People who are 65 and over, or meet the Social Security definition of disabled can qualify for this program if their countable income (income after allowed deductions) is less than \$1,203 for an individual or \$1,641 for a married couple (if both apply). All SSI recipients qualify for Medi-Cal.
BREAST/CERVICAL CA	Men or women diagnosed with breast cancer or women diagnosed with cervical cancer can qualify for this Medi-Cal program if income below 213% FPL.
FOSTER CARE & ADOPTION	Children who receive federal adoption assistance or foster care maintenance payments must be covered by Medi-Cal. Children leaving the state foster care program at age 18 may retain full scope Medi-Cal benefits regardless of income until they are 26.
MINOR CONSENT	Minors can receive limited scope Medi-Cal under this program for pregnancy, STD care, family planning, abortion, sexual assault or mental health services. There are no income or immigration restrictions for this program.
